

# OUR FAVORITE COLORS FOR 2020

FREITAG from Zurich buys used truck tarpaulins from all over Europe and uses them to produce bags and accessories. How much we pay you for the tarps doesn't just depend on the size and quality, but also on how rare the color is.

## SO, BRING THEM ON! ALWAYS! NOW!

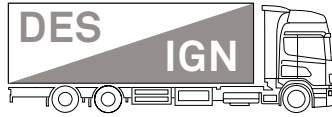

Used truck tarps in these category-A colors are always high in demand at FREITAG, which is why we pay the most for them – regardless of whether they're plain or feature a design/lettering.

Dark red	Pink	Purple	Dark gray	Light gray	Industrial green
Green	Dark green	Olive	Brown	Black	

## YES! PLEASE!

We're happy to buy category-B tarps in these colors with design/lettering at a slightly lower price.

only with lettering

White	Beige	Red	Light green	Digital print	Light blue
Dark blue	Blue	Silver	Yellow	Orange	

## HMM...MAYBE?

We don't have that much demand for other tarp colors. Send us a photo of your tarps and we'll get a quote to you immediately. For contact information, see page 2.

## AND THIS IS HOW IT ALWAYS WORKS

The colors we need can vary from one year to the next. But everything else is always the same:

- Of course, we'll organize transport to Zurich and cover all the arising costs.
- Depending on the pick-up location, the cost of transport can pay off for as few as two or three complete tarps.
- All you have to do is secure the rolled-up or folded tarps on pallets and give us a call or e-mail us.
- All lettering and logos on tarps are rendered unrecognizable during the bag production process.

## TRANSPORT TO ZURICH

- We'd be happy to arrange pick-up of your tarps on EPAL pallets (120 x 80 cm).
- A pallet has room for up to five tarps if they are folded or rolled up neatly (max 600 kg).
- Please fasten securely with belts or straps.
- Mark each pallet clearly with your name.
